But here's a few tips to help you get everything you can out of the training as soon as possible...

--First, watch Steve's Welcome Video. It details everything you need to know to make the most of your training.

--Second, start listening to Module 1 and take notes. Don't worry about those PDFs you see above the audio buttons right now... Steve will let you know when it's time to read them.

--After Module 1, take the quiz! This will help solidify your knowledge and help you retain what you learn.

--Finally, watch the Q & A video. All the questions unanswered before, will be answered here.

Remember, you don't need to listen to everything at once. Take your time. Absorb what you see and

All the audio and video is available to be downloaded to your iPod if that's more convenient for you. You can also burn it onto a CD and listen in the car. Great for a long commute!

Do what's best for you, and however best you learn.

Sounds good?

Great. So go ahead, get started, and we'll talk again soon.
